

2018 IEDM Conference Theme
Device Breakthroughs from
Quantum to 5G and Beyond

2018 IEEE International Electron Devices Meeting

December 1st - 5th, 2018

Hilton San Francisco Union Square
San Francisco, California

Focused Call for Papers

IEDM is pleased to announce increased technical focus in the area of:

Compound Semiconductor & High Speed Devices

Topics

Papers are solicited on electronic devices and high-speed device technologies, in the following themes of interest:

- Devices enabling mm-wave and terahertz applications
- Highly scaled devices
- Devices for RF power amplifiers
- Devices for low noise amplifiers

New or trending areas include:

- High power density mm-wave and microwave devices
- Thermal management and active device cooling

Streamlined Paper Submission

Submission deadline: August 1st
Single submission of final,
four-page paper
